Purple Grain Multi: Three times the removal rate!

With its unique multilayer design, the powerful „Purple Grain Multi“ achieves maximum service life. The wear of the three grinding layers remains under control right up to the end. This is reflected in measurable cost savings compared with conventional tools. The integrated M14 threaded holder ensures superfast tool changes without an annoying clamping nut. With its flat tool geometry, the „Purple Grain Multi“ achieves very good finishes, thus obviating the need for reworking.
